- Thriftwood Camping Residential
- School council & year group ambassadors
- Student receptionists

YEAR 7

- *Serviam:* Year 7 buddies
- Stubbers Residential
- Religious Retreat to Aylesford
- School council & year group ambassadors

House Captains:
Guide house members towards success, organise inter-house events in sports, arts and academics, build house identity through traditions and team spirit and support younger house members and foster inclusion

Chaplaincy:
Provide spiritual leadership, opportunities for reflection, help to service community outreach and assist with event planning linked to the school

School Student Forum:
Representatives are elected by peers from each year group through a formal election process and voice student concerns and propose solutions. They may also have the opportunity to help lead and manage student events.

Global Girl Leading Conference:
This is a day organised by Mulberry School for Girls every year in celebration of ‘International Day of the Girl’ with many schools across the globe in attendance

Year 7 overview
This will be the students’ first year at St Ursula’s Convent school so the focus will be on developing their skills to help them integrate to the school environment as happy and thriving students. Student leadership opportunities and residentials will help to develop confidence, resilience and team-building skills, as well as demonstrate the school’s main value of *Serviam*, which will be an important central focus throughout their school experience.

Year 8 overview
Students will now be able to build upon their initial skills gained in Year 7, as they will now be at their midpoint of KS3. The opportunity for every child to support the administration team within the school as a student receptionist will help increase their responsibility, and their residentials and retreats will build their interpersonal skills and help them bond as a year group.

Year 9 overview
Students will strive towards becoming independent learners in preparation for KS4. This will include an increase in trips and leadership opportunities. The Societies programme will help students to have a university experience with a site in London.

Year 10 overview
Students will be in their initial GCSE year, and be working towards their targets for the end of Y11. Students will be encouraged to become more proactive leaders within the school through inter-school competitions such as Jack Petchey, as well as JLT and prefect interviews.

Year 11 overview
This will be the students final year at St Ursula’s, so the focus will be on developing their skills for once they leave the school, as well as celebrating their successes. Students will be the leading members of the school and be considered as mentors through their peers, set up through the JLT and prefect team, as well as peer court and literacy buddies. Students will have the opportunity to determine their own celebration through leading fundraising for their prom.
