

Implementing Protective measures in education and childcare settings for the continuation of education provision for vulnerable children and children of critical workers and the phased return of Nursery, Reception, Year 1 and Year 6 to Primary school from 1 June 2020

This Risk Assessment and Planning document should be carried out with reference to Government guidance and existing Health and Safety Guidance.

The aim of the document is to minimise the potential risks of Covid – 19 and ensure that the health, safety, social and educational needs of children, families and staff are met as far as possible during this next recovery phase.

The following principles underpin all planning and actions:

- Children’s needs are paramount
- Staff physical and emotional well-being must be considered at all stages of planning and implementation
- Ensuring effective infection protection and control and preventing the spread of coronavirus -e.g. dealing with direct transmission (for instance, when in close contact with those sneezing and coughing) and indirect transmission (via touching contaminated surfaces).
- Minimising contact with individuals who are unwell by ensuring that those who have coronavirus symptoms, or who have someone in their household who does, do not attend childcare settings, schools or colleges
- Cleaning hands more often than usual
- Ensuring good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach
- Cleaning frequently touched surfaces often using standard products, such as detergents and bleach
- Maintaining social distancing and minimising contact and mixing by altering, as much as possible, the environment (such as classroom layout) and timetables (such as staggered break times)

School: St Ursula’s	Assessment Date: 15.05.2020 Updated September 2020. Any updates since shared made in blue.	Assessed by: SLT and St Ursula’s Premises Manager	Approved by:
